EFFY Healthcare at HFMA ANI 2019 in June 2019, to share its vision and solutions on how to Increase Efficiency throughg Actionable Analytics, to Improve Revenue Cycle Management, Ensure Clinical & Operational Efficiency

BETHESDA, MD.– May 15, 2019 – [EFFY Healthcare](#), an efficiency platform that overlays existing systems to help healthcare organizations compare massive amounts of data across their total enterprise, detect exceptions and problems, and guide interventions to improve efficiency, announces that will be present at HFMA ANI 2019 in June 23-26, 2019, to share its thoughts and solutions with Customers and Partners, on how to Increase Efficiency throughg Actionable Analytics to Improve Revenue Cycle Management, Ensure Clinical & Operational Efficiency.

EFFY will also showcase the success story at Bon Secours Hospital System, a not-for-profit Catholic health system in East coast, where they have successfully implemented their software tool RAID Healthcare, an actionable analytics and automation solution that effectively addresses claim denials and revenue leakage to improve Revenue Cycle Management (RCM) throughout the enterprise.

Lisa Darsch, MSN, RN, senior clinical advisor, EFFY, states, “EFFY software solution requires low upfront costs and makes it possible to devise rapid interventions for correcting inefficiencies and revenue leakage that impact the bottom line-- before they occur. This prevents the denial and lowers the accounts receivable days.

EFFY overlays existing transactional and operational systems, functioning as a permanent, protective 24/7 auditing and reporting “umbrella” that makes data comparable, and enabling leaders to take action and to follow up on that action.

Dedicated to healthcare efficiency, EFFY and its unique Unified Data engine, empower hospitals, hospital systems and Integrated Delivery Networks to retrieve, review and compare massive amounts of operational, clinical and financial data across a total enterprise -- no matter its size, data incompatibility or platform complexity.

“Our customizable, exception-based triggers identify deviations from norms, helping users reduce errors and denials, improve efficiency and productivity and meet compliance requirements,” Darsch adds. “EFFY makes transactional systems smarter and cleaner, while generating significant ROI within months of implementation.”

About EFFY

Functioning as a permanent, protective 24/7 auditing and exception reporting “umbrella,” EFFY makes data comparable and actionable, enabling users to correct issues that compromise financial viability, and clinical and operational performance. EFFY empowers hospitals, hospital systems and Integrated Delivery Networks to retrieve, review and compare massive amounts of operational, clinical and financial data across their total enterprise – and trigger actions upon it, no matter the size, data incompatibility or platform complexity.
