Healthcare Efficiency

EFFY Healthcare partners with SCIENCE@WORK to promote and implement EFFY's technology-enabled efficiency solutions for healthcare organizations

UNION, NJ. – January, 2020 – EFFY Healthcare, a technology company focused on healthcare efficiency, **has just announced a partnership agreement with SCIENCE@WORK**, a company focused on promoting and implementing tools and methods that greatly impact the way organizations operate and produce outcomes.

EFFY Healthcare provides RAID® Healthcare, a powerful actionable analytics platform that addresses effectively all business assurance requirements: revenue, clinical, quality and operational, to improve performance throughout healthcare organizations.

RAID® Healthcare is the best tool in class, assuring the highest rankings on quality, safety and efficiency, through digitalization, automation and continuous auditing of data.

With multi-sources data collection, monitoring, auditing, notification and actionable analytics functionalities, RAID® proved to have a Return on Investment within less than 12 months of implementation. EFFY's software platform requires reduced upfront investment and makes it possible to devise fast interventions to correct inefficiencies and revenue leakages that impact operation performance and profitability.

"We are very happy to have SCIENCE@WORK as our partner, given the tremendous knowledge the company has of the healthcare industry and the proven capacity to manage projects in markets that may greatly benefit from our Solution", says Jose Xavier, EFFY's CEO.

César Guimarães, President of SCIENCE@WORK, states that "EFFY and RAID® fit perfectly our goal to support accountable healthcare organizations. Having EFFY as a partner we strength our offer and RAID® becomes a corner stone of SCIENCE@DATA, our unit devoted to analytics and business assurance".

Dedicated to healthcare efficiency, EFFY and its unique RAID® engine, empowers healthcare providers, governmental organizations and insurance companies to retrieve, review, compare and use data, no matter its size, source or platform complexity.

“Our customizable, exception-based, triggers identify deviations from norms, helping users reduce errors and denials, improving efficiency and productivity, meeting compliance requirements,” states Jose Xavier, and adds: “EFFY makes transactional systems smarter and cleaner, while generating significant ROI.”

About EFFY

EFFY is a company focused on improving efficiency in the healthcare industry through technology, present in multiple markets and driven to produce measurable results with RAID® Healthcare software platform. The company started operating in the US, where revenue cycle management and operational and quality assurance are usually monitored and audited, having rapidly expanded internationally given the demand for a strong and reliable assurance and auditing software solution.

EFFY overlays existing transactional and operational systems, functioning as a permanent, protective 24/7 auditing and reporting “umbrella” that makes data comparable, enabling leaders to take actions and to follow up on those actions.
